The best metallics in Mayfair

METAL SHOWS ITS METTLE

Metals have never been cooler, and it hasn't escaped the notice of Mayfair's top interiors brands and designers. Lorna Davies picks her highlights

FELICE JAMES

DESIGN COLLABORATION Felice James was created by Mayfair interior designer Rebecca James and artisan Andrea Felice, and was born from a mutual passion for mid-century Italian design and art deco. Having previously collaborated on a selection of private projects, the pair decided to fuse Rebecca's luxury, glamorous aesthetic with Andrea's flair for modern industrial design and craftsmanship; their Collection I launched last month. This fluid and balanced collection mirrors the sensual curves of the female form, with each piece having been hand-crafted over the course of 8-10 weeks in Andrea's West Dulwich studio, then signed and numbered to assure its provenance. Rebecca drew inspiration from real-life female figures, with each piece's name holding a symbolic meaning and, in some cases, the piece even resembling she who inspired it.

Kookie mirror, £5,250

GIOVANNI RASPINI

GIOVANNI RASPINI opened its first flagship store on South Molton Street in the summer, revealing its handmade jewellery and homeware collection to Mayfair shoppers. The pieces take inspiration from the landscape of Tuscany where they are made.

Champagne bucket with frogs, £12,050
